

Intuition Case Studies

Onboarding & Induction

The Onboarding & induction journey for new hires needs to be seamless and effective. Our digital onboarding hubs provide a dedicated digital onboarding resource fully integrated with your existing systems and processes.

The Challenge

How to better support the onboarding of new hires to the organization, improve overall program effectiveness and facilitate remote working.

The Solution

Intuition delivered a customised **Onboarding Solution** on the intuition learning platform specifically designed to meet the clients exact needs in relation to onboarding and induction including:

- Delivery and tracking of Mandatory Compliance Training
- Providing simple access to all onboarding tasks and checklists
- Availability of additional required resources and reference materials

The interface and user experience was designed to match brand, reflect company culture and mirror existing and desired onboarding processes and is seamlessly accessible across desktop, tablet and mobile and integrated with existing HRIS and LMS systems.

The project is entering its tenth year of service with enhancements and improvements being delivered to the system throughout that time to ensure the system stays modern and up to date with the latest learning trends and user behaviours.
