INTUITION KHX

Bank ABC leveraged the Intuition KHX platform to provide its 4,000 employees with access to Intuition's Know-How Financial eLearning. This strategic move enabled the bank to seamlessly implement comprehensive training initiatives across its global footprint.

eLEARNING CONTENT

Training utilized both mandatory training modules from Intuition's library, such as Operational Risk and Resilience, together with custom eLearning content developed by Intuition specifically for Bank ABC in multiple languages, including Arabic, French, and English, covering Business Continuity Management (BCM).

INDIVIDUAL CAREER DEVELOPMENT

Additionally, the platform supported individual career development through diagnostic learning paths, promoting internal advancement and recognizing achievements with certificates for completed courses. This approach not only ensured compliance and operational excellence bank-wide but also fostered a culture of continuous learning and professional growth.
